A big, expensive river cleanup may sound like a good idea. But it isn't.

The EPA should come out with a plan that's good for the river and the fish. But you should also make sure that the plan is flexible and isn't so expensive that it drives out the companies that supply the blue-collar jobs our city needs.

Thank you for considering my concerns. I hope you will agree that we need to do all we can to support Portland's environment and economy.

Sincerely,
